

# thoda bahut we need your help.

This is unprecedented.  
Never have we been in a situation where  
every Indian is impacted.

This is not a cyclone in the East  
or an earthquake in Gujarat.  
Where the rest of the country sighs  
and continues to function as normal.  
Covid19 has brought the  
entire nation down on its knees.

Unfortunately it is in these times,  
that we realise how fragile we are  
as a nation and as a society.  
Our labour is predominantly unorganised.  
And our healthcare facilities are negligible.

A substantial percentage of our population  
are daily wage earners.  
For them, a lockdown means hunger.

Our healthcare workers are preparing  
to handle their worst scenario yet.  
Without the protection they need.

Our police force is out on the street.  
Enforcing the lockdown, trying to get  
an illiterate population to understand  
the gravity of the situation.  
At great threat to their health.  
And in many cases, to their person.

The centre and state govts are trying their best.  
To fight a battle they aren't trained to.  
Or, equipped to.  
And they can use every support they can get.  
From those of us who can.

Which is why we created Thoda Bahut.  
All of us need to step up.  
To fight the toughest battle in India's history.
